

TECHNICAL RIDER

Dear ladies and gentlemen, organizer and audio engineer!

This is the Technical-Rider of THE GREAT GRAY FUNK.

Depending on the venue, it is possible to alter the guidelines in this rider in consultation with the organizer. For further enquiry, please feel free to contact us, so we can find a solution which will work for the both of us. Thank you very much for your understanding and diligence. We are looking forward working with you.

Drums

SOUND-EXAMPLES

To achieve an optimal result and getting an idea of our sound, you will find sound examples of our music in this link. Please give it a listen if it's possible for you: [Cortisol - YouTube](#) | [eritis - YouTube](#)

GENERAL INFORMATION

MONITORING

Ideally five or more monitors. (*see Stage Plot*).

MICROPHONES

12 microphones are required. The band will bring 2 (vocal) microphones on their own. (*see Channel List*)

EFFECTS ON VOCALS

A bit of Reverb on both the main and backing vocals are required.

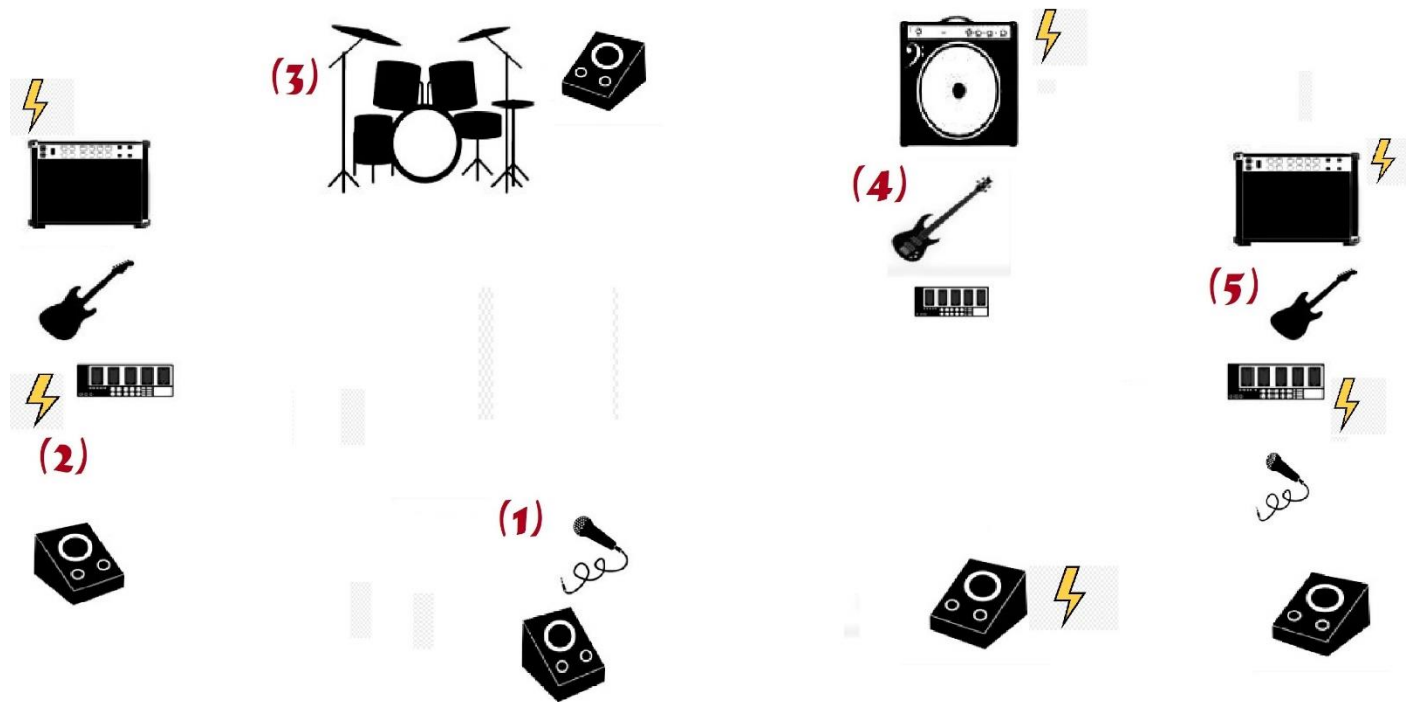

ELECTRICAL CONNECTION

6 electrical connections (230V) are required on stage (*see Stage Plot*).

OTHER

The band will **NOT** bring their own sound engineer. So, an engineer from the venue is required.

STAGE PLOT

 ...needed connection for power supply

 ...needed Monitorbox
